

Module: Communicating Global Health

Assigned module parts

Learning form	Course (compulsory)	Turnus	ECTS
Lecture & Seminar	Communicating Global Health	WiSe	2/1

Type of module	Elective module with compulsory courses
Participation requirements	None
Time in the course of studies	Semester 1
Duration	3 day block seminar
Contents	Track 1 Communicating Global Health Besides getting a first insight into global health, students will have the opportunity to develop skills in areas such as intercultural and -disciplinary communication, presentation skills, working together in multidisciplinary teams. Track 2 Insights into Global Health Students will have the chance to directly engage with the content and methodologies they learnt and present their research during a poster presentation session. Additionally since this will be the last activity planned as part of the students' participation in the EUGLOH Certificate of Advanced Studies in Global Health, a small graduation ceremony will take place at the end of the event. All students will also participate in the "Global Health Days" at LMU Munich, an event aimed at connecting researchers, educators and staff to strengthen EUGLOH as a platform for interdisciplinary and international education, research and innovation in Global Health. Additionally the tracks will combine for a case based learning activity focusing on communication in global health.
Learning Outcomes	• Be able to work effectively in multidisciplinary teams • Develop intercultural communication skills • Deliver engaging presentations

	• Showcase projects addressing complex global health challenges in an interdisciplinary setting • demonstrate comprehensive understanding of global health • engage in dialogue between professionals from multiple disciplines
